

Alloyfold 4

Color Available

Frame Colors

- A-Chrome
- B-Neutral
- C-Gray
- D-Bright White
- E-Classic White
- F-Black
- G-Bronze

Features and Benefits

- 30% lighter than a steel equivalent and as strong. Cheaper to transport and faster to setup and pull down
- Maintenance free – The anodized frame if scratched does not expose a different material, requires no retouching and doesn't rust
- Maximized rental life and return on investment due to the durable anodized frame
- Contemporary – the anodized frame is available in differing finish options and seat colors

"I have the anodized aluminum frame. I plan to purchase many more. My goals for chairs were to reduce maintenance costs, meet our high appearance standards in the long term (look good after a few years without a lot of work), buy a product that was made in the USA and be strong enough to be both safe and hold up to the rigors of rental life. Alloyfold has met my objectives".

Tim Maloney, Canton Chair Rental, Ohio.

Alloyfold 4

Our signature aluminum frame folding chair is used by the rental industry worldwide. The Alloyfold 4 is strong, rugged and robust while being low maintenance and rust free. Our customers say this is the world's best rental chair!

Frame

- Chair frame and seat plate high grade Aluminum. 19mm (approx 3/4") aluminum extrusion.
- Fittings are zinc plated steel as standard
- Stainless steel fittings optional
- Satin anodized finish to 8 microns. Anodizing is not a coating, it is an electrochemical alteration of the metal's surface.

Seat Base & Back

- Injection molded 100% polypropylene. High UV resistant. Smooth finish. Ribbed for maximum strength.

The Assembled Chair

- Weight is 4.8 lbs (2.8 kg)
- H 83cm W 40cm D 40cm
- The chairs' tensile strength exceeds 310Mpa, its yield strength exceeds 283Mpa (equivalent to a load of 500lb). Shipped in 10 chair box / 100 chair skid out of AR, USA.
- Stack of 50 chairs measures approx 1.5m
- WARRANTY - 5 YEARS against defective performance in conjunction with Alloyfold's full warranty terms and conditions.

Options & Accessories

- The Alloyfold 4 is available in **three frame finishes** - Satin anodized, bright anodized (similar in appearance to chrome) and color powder coated (standard or custom colors as required).
- **Plastics color** - Standard colors include Black, White, Burgundy, Royal Blue, Light Blue, Brown, Camel, Cream, Green and Red. Customized colors available on request.
- **Gang clips** - Sturdy clips enable chairs to be held firmly together in compliance with fire safety regulations.
- **Easy identification** - Your company name and logo can be stamped on the seat back (free of charge on orders over 5000 chairs).
