To Whom It May Concern:

Dear Sir/Madam

Re: Oaktree Labour Hire

We would like to confirm the use of the above mentioned company as a sub contractor for container work in our yard. We have been using Oaktree for a number of years and put through on average 5-7 container devanns per week. Work on our yard involves devanning loose bags ex container and palletising them for warehouse storage as well as any other physical handling we may need help with.

We have an excellent working relationship with Oaktree and labour is always available when needed.

Kind regards

Hayley Beswick
